# Durango Modular Group

The new Durango deep seating collection is designed to create a comfortable option for any commercial outdoor space. Each seating piece fastens easily to another, offering multiple configurations to furnish your outdoor area accordingly. The Durango deep seating pieces are constructed of an all-weather dark gray woven wicker, wrapped around an all-aluminum, highly durable frame for the outdoors. The cushions are made of a high densified fiber that is protected from the elements of the outdoors. The cushions are fabricated, using Sunbrella solid color fabrics. Sunbrella fabrics are made of solution dyed acrylic yarns that will resist fading for a long period of time. The Durango collection also comes with a variety of accessory tables to enhance the overall Durango collection. The accessory tables feature faux wood lighter gray slats that resemble and feel like wood, but will look better and last longer over time compared to real wood. They are offered in two styles, one including the correlating wicker as used on the Durango deep seating pieces, or another simpler design in a gunmetal finish, all-aluminum frame. For the perfect outdoor seating group that is functional, comfortable and will withstand the test of time, consider Durango deep seating for your outdoor commercial space.

## Fencing

---

Plantation Prestige “portable” fencing is an innovative design that offers a unique way of fencing-in any outdoor patio area. Plantation Prestige fencing is designed to create many configurations, whether it is a 90 degree angle or a simple straight line. Each panel pivots at the connecting post to create the desired angle, yet is still sturdy enough to offer a solid steel, fencing structure. The fencing components are also very affordable, compared to steel fencing structures that would normally have to be professionally installed. The solid steel, fully welded panels easily connect to heavy gauge tubular steel posts to create a sturdy barrier for any outdoor space. Attaching panel to post is easy, and only takes an adjustable wrench or ratchet to connect together (all hardware included). Fencing can be secured into the surface IF desired with hardware that comes with each panel. Being structurally sound when fully connected, easy to assemble and very affordable, Plantation Prestige fencing is the ideal choice.
